Parts Division

We are a leading supplier of spare parts for a wide range of Earth Moving Equipment and Diesel Engines.

Authorised dealer of IPD (Industrial Parts Depot) & ACT Parts for last two decades in the Sultanate of Oman. IPD is a prominent U.S manufacturer for Industrial Engines, mainly Caterpillar, Cummins and Detroit Engines

- Strong team to identify and define the requirement of parts.
- Our aim is to provide better life to your equipment with quality parts.

Engineering Division

Engine Section

Our engine section is equipped to do high precision jobs using crankshaft grinding machine, vertical boring machine, line boring machine, honing machine, surface grinding machine, automatic seat cutting machine and connecting rod boring machine. We also undertake hydraulic pressure testing.

Machining Section

Our machining section is equipped with high precision conventional lathe machines of various sizes, milling machine, slotting machine and radial drilling machine. Our team of turners and machinists are technically qualified & experienced. We do manufacturing & repair of all kind of precision components. Our portable line boring machine facilitates in situ service to our clients.

Fabrication Section

Our fabrication section team consists of highly skilled and qualified fabricators and welders. We fabricate & repair all kinds of heavy earthmoving equipment components like bucket, boom and arm, to name a few. Also, we fabricate breaker mounting brackets. We also manufacture acoustic enclosures for generators.

Service Division

Strong engine rebuilding team who are capable of carrying out overhauling of engines from single cylinder to 16 cylinders of various brands like CAT, Perkins, Detroit, Iveco, Deutz, Mercedes Benz, MAN, to name a few. Inhouse Machine shop to reduce turnaround time for repairs.

FIP Division for overhauling and calibration of multi brand fuelinjection pumps and fuel injectors.

Winding Division for rewinding of motors upto 220 kw and generators upto 1500 kva, using H class insulated windings and high-quality consumables

Electrical Division with load banks to test generators upto 1000 kva.

General bay (heavy equipment major repair& service) for general repairs of transmission, hydraulic pumps, hydraulic cylinders and undercarriage.

Automotive Division
